Sounds like a plan.

Hi Yolanda,

Thanks for checking in. I've had a cough since being here, but it's really not so bad. I'm interested in finishing my time in this role (3 more days!!) and heading out. My preference would be not to leave early, but also not to extend.

Happy to keep checking in though.

Best,

Amanda

I just spoke with David. Steve C agrees that a JIC/Area Command/Farmington CP liaison for today and Monday is useful. After seeing the lack of communication over the past week, I see the need. They will not be developing a new role, more helping to streamline the communications back to the CI Chief in Farmington (you). David is looking to leave on Tuesday.

David also mentioned that you are sick. We can probably bring in Sona early, or reach out to Kay Morrison (R10) to replace you before Thursday. Let me know...

Take care of yourself!

Thanks for the assistance.

Myself and Bret both agree that coordination with NN is our top priority currently, so I'll have a better sense of strategy and staffing needs after our meeting with them today in Shiprock. We should touch base more on this later today.

In terms of the liaison to the JIC, David brought it up with Bret, and Bret let him know that in an emergency response we can't "self-deploy". He asked David to call Steve Calanog who should be making the official resource request for the folks up in Area Command. I haven't heard an update since then, though I know David is in Durango today.

Best,
Amanda

I have made some adjustments, keeping Linda on through Monday and changing the roles that you identified. Also, thinking through better staffing Sat 23; I assume Linda/David will redeploy; we'll chat about that today at the 9:15. Alternatively, Carlin might be able to come earlier, giving Linda/David a larger break.

Did you have an opportunity to speak with Bret about the CI roles?

Hi Yolanda,

Thanks for all your work and for sending this along.

Let's have ZiZi on float and Linda on field tomorrow, since Linda is my point person in the field until further notice. Also, if Linda isn't around then ZiZi has to be the one in the field on the 17 (and I would put Wilson on float), because she'll be the only person with meeting experience. I would prefer Wilson and Alejandro to overlap with Linda for a day so that they can learn from her, but realize that that puts 5 CICs out here for that day.

We might need to make adjustments looking farther forward, especially since the 23rd looks really light, but we'll have plenty of time to re-assess before then.

David is currently telling me that he'll be with us tomorrow rather than in his new role in Durango, so I'm trying to get a better understanding of what that looks like here. It might be that all 3 of them are in the field since it's turning into a long field day as another Chapter we haven't been to (in coordination with 2 other Chapters we haven't been to) is requesting us.

Best,

Amanda

Here is another take on the staffing plan, thinking about roles (2 field, 1 float, 1 CP CI lead). If you need the additional JIC liaison, we can try adding something new.

David, below and attached is the latest staffing chart, as of yesterday. Started today, you have 4 people everyday, plus the interpreters that Zizi have secured. I tried to start identifying who will play the CP CI Chief (Amanda, then Zizi, etc.). Y'all should probably start thinking about "roles" to fulfill for the other 3 people (like 2 field people plus a floater). We can create a new role for the Durand JIC Region 9 CIC liaison, if you think that's necessary.
